

Enabling founders to be pitch-perfect

Backed and Believed by

Vertxlabs, Inc | Octartech Private Limited

Introduction

Founders struggle to communicate their vision clearly to investors.

Traditionally achieved through **fundraising advisors**, a slow and expensive process where founders outsource deck creation and storytelling.

Expensive

~\$250/hour

Approximate consulting cost including for just pitch deck refining, investor intros start from \$5,000

Long Process

>3months

This takes at least 4months to be good enough. Involves multiple functions and it might be even longer.

Problem

There's no affordable way to be **pitch-perfect** and get **connected to investors** in short time.

Solution

AI Powered Fully Fundraising Stack as a SaaS

Affordable

Personalized

Simple & Quick

Product

We have already built a mvp which **founders can use for fundraising**

1. **Evaluate** - Analyze your pitch deck and access report under 60secs.
2. **Mock Pitching** - Talk with an AI Investor which exactly sound like a human.
3. **Outreach and Leads** - Generate the leads based on your profile.

Product helps founders to master their pitch and be confident with clarity while taking a real pitch call.

Out of 13,000 users, 84% are from India and the US and 60% of them signed up to use the paid version.

Business Model

We monetize **Vertx** through **recurring SaaS subscriptions** from founders.

Additionally, we're incorporating **Luminous - free for student founders.**
monetized through license fees from universities, SaaS pricing for incubators, VCs, and angels
